Languages: Java, C, C++, Python
Web: HTML, CSS

A Brief Overview:-

- As an enthusiastic web developer entering the field as a fresher, I bring a passion for creativity, problem-solving, and continuous learning to every project I undertake. With a solid foundation in HTML, CSS, and JavaScript, I am eager to leverage my skills to create engaging and user-friendly websites.

- Driven by a desire to stay at the forefront of technological advancements, I am committed to expanding my knowledge and mastering new tools and frameworks. Whether it's exploring the latest trends in web development or diving deep into emerging technologies like React.js or Node.js, I am always eager to expand my skill set and adapt to the evolving landscape of the industry.
- With a keen eye for design and attention to detail, I strive to deliver visually stunning and intuitive web experiences that not only meet but exceed client expectations. I am eager to collaborate with talented teams, contribute innovative ideas, and take on new challenges that push the boundaries of what's possible in web development.
- With a strong work ethic, a positive attitude, and a willingness to embrace opportunities for growth, I am excited to embark on a fulfilling career journey as a web developer, making a meaningful impact with every line of code I write.
- Effective communicator with excellent relationship building & interpersonal skills; possesses a flexible & detailed oriented attitude with strong analytical, problem solving & organizational building abilities.

Internship & Project work:-

Done PHP based web application named – Aegis Work whose primary goal is to tackle some of the main business related queries such as applying for shop or company registration or license, PAN, TAN, UAN etc, under the guidance of Mr. Nikhil Brahmbhatt from Naskraft IT Solutions pvt ltd, Aurangabad, Maharashtra.

Self-Portfolio Website : -

The self portfolio website project, meticulously crafted using HTML, CSS, and JavaScript, serves as a comprehensive representation of my professional journey, skills, and achievements. Designed with a focus on clarity, elegance, and usability, the website provides visitors with a captivating glimpse into my expertise and aspirations as a web developer.

Employing HTML, I meticulously structured the website's content with semantic markup, ensuring accessibility and search engine visibility. CSS was then

employed to style every aspect of the layout, from typography and color schemes to layout responsiveness and animation effects, creating a visually stunning and cohesive design that reflects my personal brand.

The integration of JavaScript adds interactivity and functionality to the portfolio website, enhancing the user experience and engagement. Through dynamic content loading, smooth transitions, and interactive elements, visitors are encouraged to explore my projects, skills, and experiences in an intuitive and engaging manner.

With a focus on responsiveness and cross-browser compatibility, the self portfolio website project ensures a seamless experience across a variety of devices and platforms. Whether viewed on a desktop computer, tablet, or smartphone, visitors can easily navigate through the site and discover the breadth of my capabilities and accomplishments.
